

CommScope Field Installable Fiber Optic Connector Guide

COMMScope®

Introduction

CommScope's robust portfolio of field installable connectors are ideal for campus environments where exact measurements are not possible, or when there's a need for a fast repair to restore network connections. CommScope offers traditional epoxy/polish solutions, as well as solutions with a pre-polished ferrule from the factory, which eliminates the need for polishing, adhesives, and crimping in the field. Easy to use and quick to install, CommScope field installable connectors and tool kits are designed to simplify the termination process and enable you to terminate and move to your next project with minimal investment in time and cost.

- Fast to install
- No requirement for pre-engineered lengths
- Eliminates unwanted slack storage
- Consistent and reliable terminations

CommScope offers an extended line of field installable connectors and tool kits, including epoxy/polish connectors, mechanical-splice Qwik II connectors, and fusion splice-on Qwik-Fuse connectors. At CommScope, we know campus network solutions are not a one size fits all. You can trust in our products and team of experts to help add the flexibility you need to create a quality solution.

CommScope QWIK II field installable connectors

The CommScope QWIK II connector is a mechanical-splice connector that is easy to use, reliable, it can be terminated in less than one minute and can be re-terminated up to three times. By eliminating the need for specialized tools and power, QWIK II connectors can be used virtually anywhere. They are available in LC, SC and ST connector styles.

Qwik II Specifications

Fiber	SMF (OS2) MMF (OM1, OM3/OM4/OM5)
Cable diameter	250 μm, 900 μm, 3.0 mm, 2.0 mm
Polish	APC, UPC, PC
Insertion loss	SMF - UPC: 0.2 dB(typical), 0.5 dB(max) SMF - APC: 0.3 dB(typical), 0.6 dB(max) MMF - PC: 0.1 dB(typical), 0.5 dB(max)
Return loss	SMF: ≥50 dB (APC), ≥45 dB (UPC) MMF: ≥20 dB (PC)
Operating temperature	-40°C to 75°C
Housing color	SMF: Green (APC), Blue (UPC) MMF: Aqua (OM3/4/5)
Standard compliance	TIA-568.3-D

Qwik II connector tool kits and accessories

QWIK II connector tool kits consist of all tools and accessories required to ensure fast, consistent and optimal termination. The premium tool kit includes a high-precision cleaver with auto-rotation blade and a handheld visual fault identifier (VFI) for the confirmation of proper termination.

Qwik II connector tool kit components

CommScope Qwik-Fuse field installable connectors

The CommScope QWIK-Fuse connector utilizes fusion-splicing connectivity to ensure best-in-class insertion & return loss performance. They're designed to be compatible with the fusion splicer already in your toolbox using the included ferrule holder, though CommScope does offer a competitively priced splicer specifically for connector installation as well. Unlike many fusion-splice connectors, with the QWIK-Fuse, the splice is entirely contained within a standard connector footprint. Available in LC and SC connector styles, choose QWIK-Fuse when market-leading insertion & return loss performance is a priority.

Fiber	SMF (OS2) MMF (OM3/4/5)

Qwik-Fuse connector tool kits and accessories

CommScope Qwik-Fuse connector tool kits are designed to facilitate fast and reliable connector terminations. The Qwik-Fuse Termination Tool Kit includes all necessary tools and supplies for cable preparation and termination—providing great convenience to installers and contractors. In addition to all components in the tool kit, the Qwik-Fuse Installer Tool Kit includes a purpose-built splicer (Installer) and fiber holders, which significantly simplify and speed up the splice-on termination process. Fiber holders to terminate Qwik-Fuse connectors using other industry-leading splicers are also available from CommScope.

760245136	Qwik-Fuse connector duplex clip, SC, 10 per pack

CommScope Qwik-Fuse MPO field installable connectors

The CommScope QWIK-Fuse MPO connector utilizes mass-fusion-splicing connectivity to facilitate rapid repairs, restorations, and upgrades to multi-fiber cable assemblies. They offer a reliable alternative when factory-terminated MPO solutions cannot be used, such as when high-fiber count cables are being fed through tight conduits or when slack storage of the multi-fiber breakout cannot be accommodated. The ferrule holder that is required for terminations is included with the QWIK-Fuse MPO termination kit and is also available separately.

Fiber	SMF (OS2) MMF (OM3/4/5)
Fiber counts	8, 12
Cable construction/diameter	3.0 mm round, ribbon–no jacket, ribbon with jacket
Polish	APC, PC
Insertion loss	SMF: ≤ 0.75 dB (Standard loss) ≤ 0.35 dB (Low loss) MMF: ≤ 0.35 dB
Return loss	SMF: ≥ 60 dB (APC) MMF: ≥ 20 dB (PC)
Operating temperature	-40°C to 75°C
Housing color	SMF: Yellow (Low loss) Green (Standard loss) MMF: Aqua (OM3/4/5)
Standard compliance	TIA 568-3. D

CommScope anaerobic connector kits

CommScope offers a wide variety of LC and SC anaerobic (epoxy/polish) connectors, which can be terminated onto 0.9 mm, 1.6 mm and 3.0 mm cable styles. UPC & APC singlemode as well as multimode versions are available. CommScope also offers tool kits, consumable kits and a rapid-cure adhesive to complete the installation.

Fiber	SMF (OS2) MMF (OM3/4/5)
