

CH3000-PASSIVES | CH3000 Optical Passives DC, DP, NP and PF-Series

Couplers, Splitters, Filters, and Muxes/Demuxes - ISP

- Telcordia GR-1209 and GR-1221 qualified, providing excellent environmental and mechanical stability
- High quality connectors to minimize insertion loss
- High channel isolation to minimize crosstalk
- Flexible, Robust Packaging Options: LGX-style 3RU 19" EIA modules (1-, 2-, and 3-slot), ARRIS CH3000 DWDM mux/demux back plates, 1RU 19" EIA pizza box
- Standard xWDM Optical Passives: Splitters and Couplers, DWDM, CWDM, LcWDM
- Application-specific Optical Passives: Broadcast/Narrowcast, Full Spectrum Multiwavelength, RFoG and PON, Commercial Services Data

ARRIS has the industry's largest and most comprehensive selection of optical passives (couplers, splitters, filters, and muxes/demuxes) for inside plant applications.

Product Classification

Regional Availability Asia | Australia/New Zealand | EMEA | Latin America | North America

Product Type Inside plant optical passive
