

Solutions for Large Public Venues

Venue owners are re-thinking the way networks are deployed and managed. They are realizing more efficiencies through a holistic approach to solving network and connectivity needs across the entire complex.

Innovative wireless technology is transforming the industry with game changing performance and cost savings. Venue owners are enabling fan experiences and services with 5G and LTE, while leveraging digital wireless systems for significant cost savings in equipment, space and power.

Convergence is the network strategy of the future—and the future is already here. Delivering multiple network services on a common infrastructure is critical to meeting the ever-increasing demand for bandwidth, and the need to reduce CapEx and OpEx costs.

“Providing an exceptional experience for our fans—on the field and in the stands—is a top priority for the entire Panthers organization,”

James Hammond
Director of IT for the Carolina Panthers

A winning strategy

CommScope’s integrated framework for network connectivity provides a unique alternative that streamlines the transformation journey while improving network performance and lowering cost. Leveraging our experience with over 250 large public venue implementations worldwide, CommScope is shaping tomorrow’s large public venue networks with a robust portfolio of Wi-Fi, switching, distributed antenna systems (DAS), copper, fiber, and services to enable transformation end to end.

Digital DAS

ERA®
<ul style="list-style-type: none"> • Commercial mobile coverage • 5G, 4G/LTE, 3G • Private LTE/5G • Massively scalable capacity

Wi-Fi/Switching/IoT

RUCKUS®
<ul style="list-style-type: none"> • High density—Wi-Fi 5/Wi-Fi 6 • IOT, location intelligence and analytics • Multi-gig switching for Wi-Fi 6 • 1/10/40/100G switching • Integrated Wi-Fi and switching management

Structured Cabling

SYSTEMAX®
<ul style="list-style-type: none"> • Fiber, copper • Automated Infrastructure Management • Inside plant, outside plant

OUR VALUE

CommScope provides an end-to-end view to your network needs and has innovative approaches and a comprehensive portfolio along with professional services. We can help you drive cost savings, reduce project risk, improve operational efficiencies, and unlock new revenue opportunities with an enhanced guest experience.
